

MBA Programme

Responsible Management Education

The IILM MBA

With the curriculum benchmarked against the best in the world, IILM MBA goes beyond the traditional functional silos of Finance, Marketing, OB-HR, and Operations and Strategy. Rapidly transforming industry has prompted a blended learning curriculum approach that focuses on Digital Disruption, Analytics, Artificial Intelligence, Block Chain, and Internet of Things. A Centre for Emotional Intelligence at IILM imbibes a learning culture encouraging responsible management.

The course curriculum incorporates blended and experiential learning through mandatory Global Study, International Trek and Company Visits. Business Simulation and Case Studies are core pedagogies in the classrooms.

With 25 years of experience in training future entrepreneurs and managers, IILM is proud to have 12000+ well placed Alumni in top companies in India and abroad.

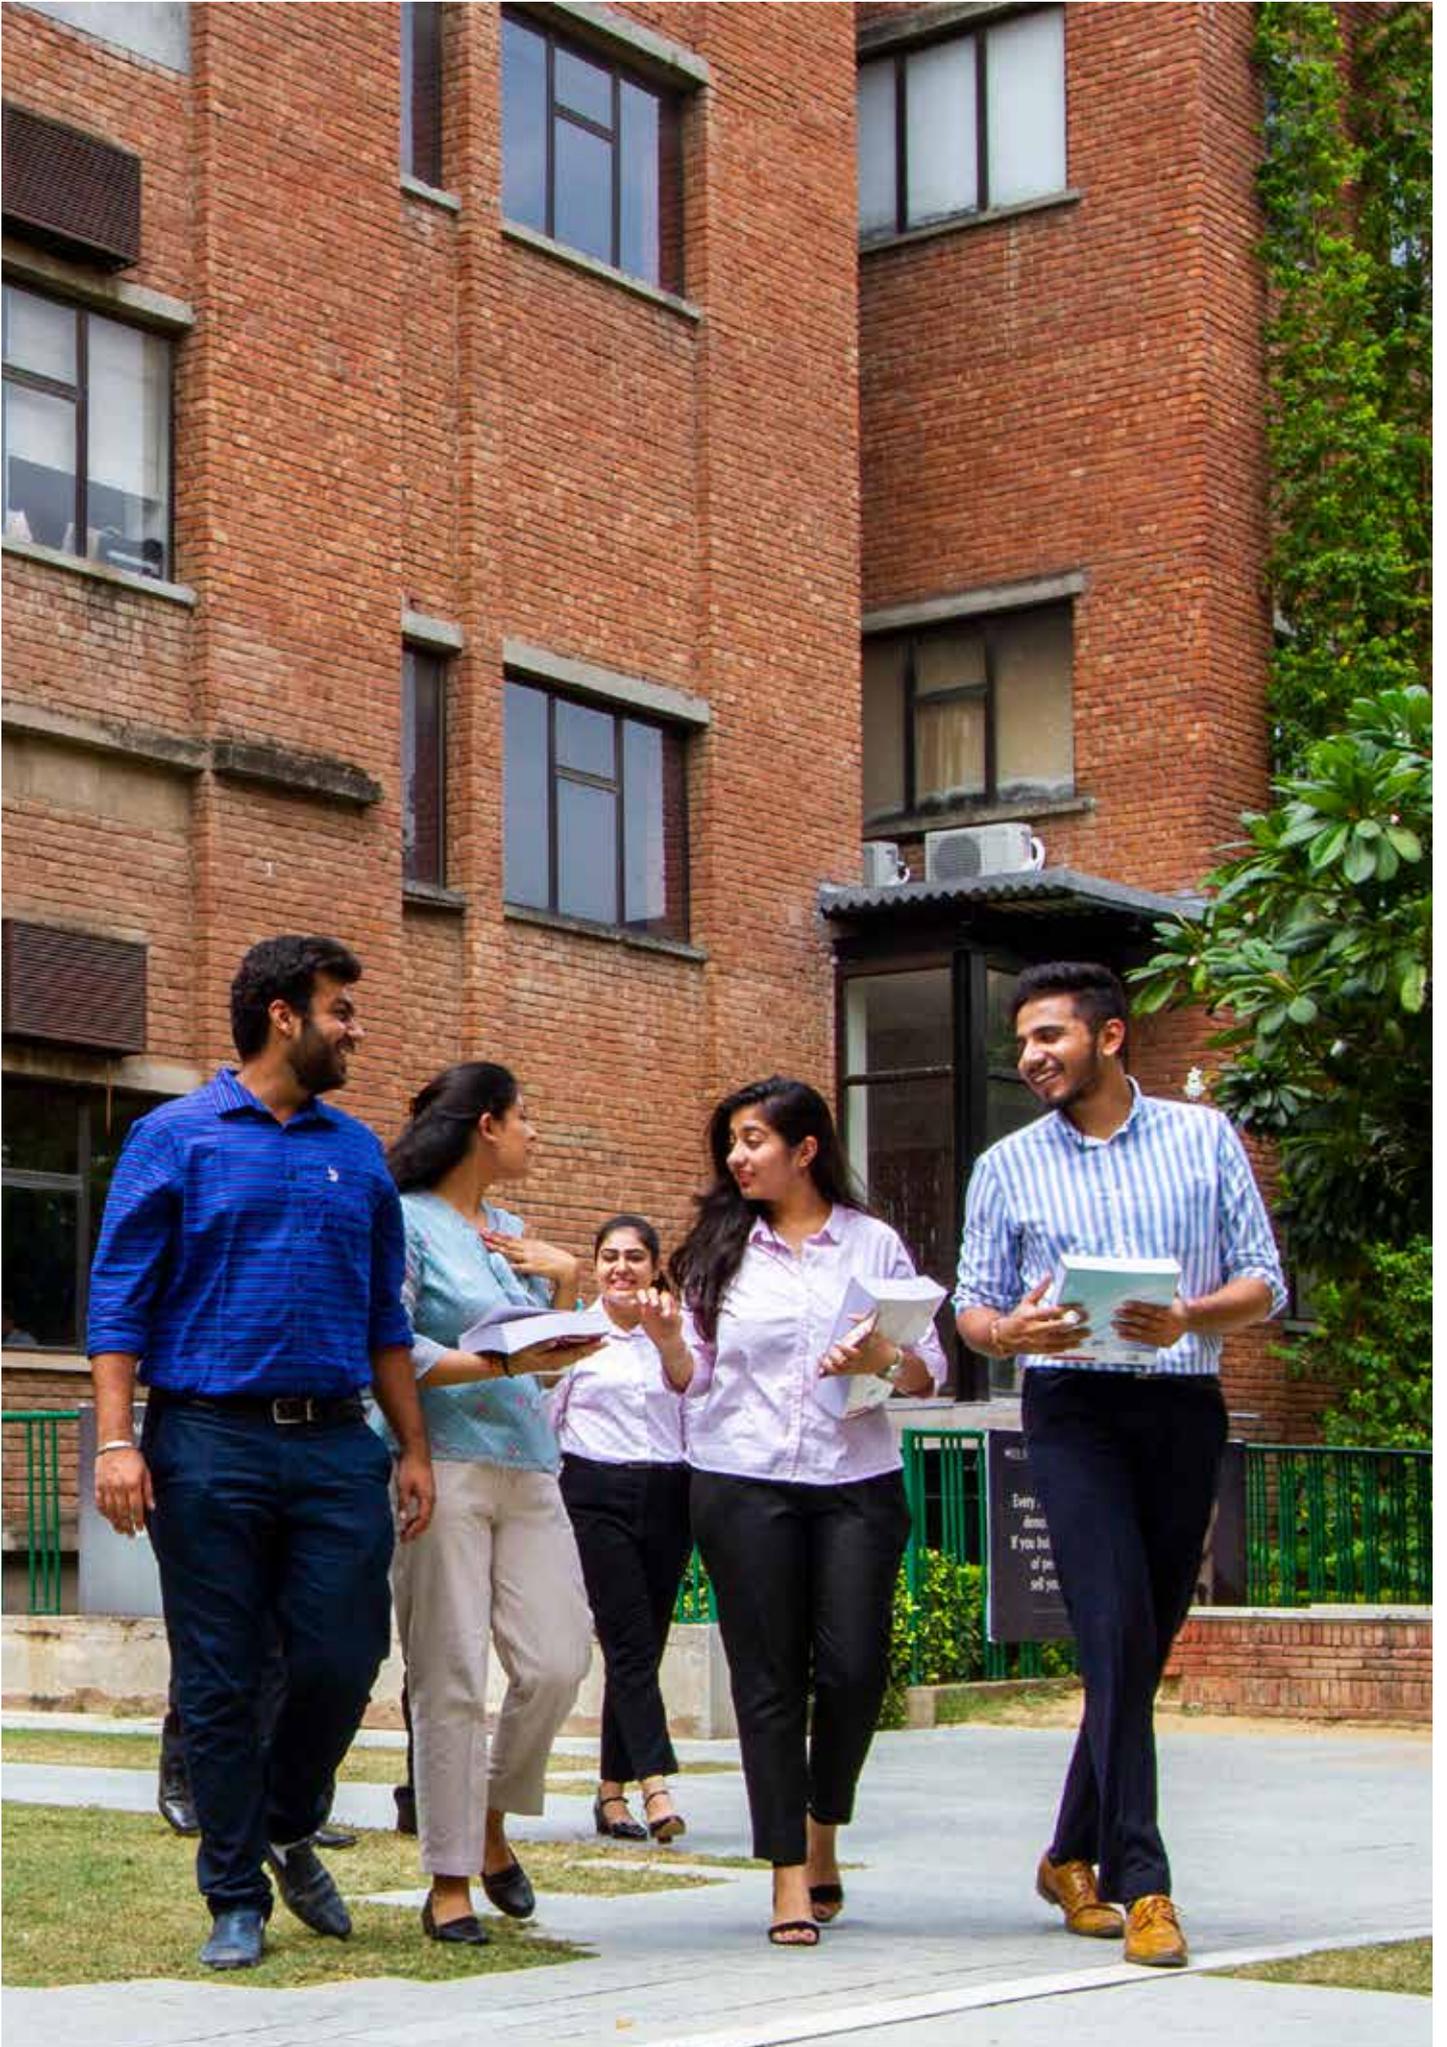

IILM's flagship MBA program is designed to develop a holistic personality in business graduates equipping them with analytical, decision-making, technical, interpersonal and technological skill set. It is a flexible program of study offering students a balanced approach to management, providing a foundation and advanced knowledge across a range of business and management principles.

The curriculum at IILM imbibes some of the best aspects of courses offered at top B-schools around the world. Course modules are inspired by Stanford Graduate Business School, Wharton Business School and IIMA.

The program is delivered over 6 terms, each term spread over 3 calendar months covers foundation concepts of management and basic tools and techniques used by managers. The academic year starts with Term One that covers General Management perspective courses which equip students to solve complex managerial issues and gain insight into the competencies needed to become capable and efficient managers.

IILM also offers specialized MBA in 6 areas:

- **MBA Insurance & Risk Management:** This combines a strong core curriculum in fundamental business disciplines with expertise in managing organizational risk. Students develop exceptionally strong critical thinking and analytical skills, and benefit from a wide variety of interactions with business professionals in risk management, insurance operations, consulting, brokerage, and related health care fields. The programme intends to provide a basic understanding of the insurance mechanism, life insurance and general insurance products.
- **MBA Entrepreneurship:** The program is designed to equip students to handle challenges thrown during their entrepreneurial journey, including making decisions in the environment of limited information, creating opportunities within constraints, resolving complex business problem. The course will equip the students with tools like business model design, lean testing, and customer and channel analytics, and introduce them to the fundamentals of entrepreneurial finance and governance. They will also be exposed to tools like community need assessment technique, systematic experimentation, design thinking and process of fund raising.
- **MBA Financial Technology:** This MBA programme will enable students to straddle the management field with the cutting-edge financial technology innovation and its applications the area of Banking, Finance and Insurance. Students will get ability to draft, strategize and develop disruptive financial innovations using the appropriate tools and techniques, and hypothesize about the effect new regulations will have on future commerce products. The Programme will enable students to have an in-depth understanding of the future of money, markets and transactions, as well as the mental tools and frameworks required to predict and leverage future trends in FinTech.
- **MBA Business Analytics:** The program on Business Analytics will provide the analytical skills to guide companies to take managerial decisions by using data on customers, products and their interactions. The program is designed to make the students digital-savvy professionals to develop business using technologies and data generation. The course will give a comprehensive understanding of the varied concepts and theoretical frameworks required for being a data analytics.
- **MBA Marketing and Innovation:** This programme will focus on developing insights and skills to create or be part of a customer-centric organization using design thinking. They will be able to develop strategies to process and support innovation. The course helps students to observe and understand the needs of the customers, develop fast experiments and prototypes with users and develop prediction markets. Students will gain cutting-edge insights about the sources of customer satisfaction and brand personality. The course aims at creating a culture of innovation that harness the creativity of the customers and employees.
- **MBA HR:** It is designed to give the learners a unique opportunity to develop expertise in the core and advanced knowledge of HRM and integration of technology platforms. The program is extremely useful to students who are keen to upgrade their existing skills and knowledge of contemporary HR processes and practices in the evolving world.

1. Globally Benchmarked Curriculum with Blended Learning

The curriculum at IILM imbibes some of the best aspects of courses offered at top business schools around the world. Course modules are inspired by Stanford Graduate School of Business, Wharton Business School and IIM-A.

Blended and experiential learning, practical exposure and continuous feedback from Academic and Career Advisors are aimed at enhancing leadership styles by developing managerial skills of students. Term Two and Three focus on core courses that build the foundation of management education in each discipline calibrated to the skills, experience, and future goals.

In Second Year students can choose Electives from six major areas. IILM's approach to Majors is to give students flexibility and guidance needed to carve out a unique intellectual experience relevant to their specific educational and career goals.

Following a blended learning pedagogy that encourages students to apply concepts learnt, the curriculum enables students to hone their decision-making process and allows them to apply their knowledge to worthy ideas.

Summer Internship is an integral part of the curriculum at IILM. The short term experience during the summer internships offer the important opportunity to work closely with professionals in the chosen field and to develop knowledge, competencies, and experience related directly to career goals. If managed correctly, internships will also lead to new contacts, mentors, and references.

Internships at IILM provide hands on experience to the freshers and also acquaint students with demands of the professional world in terms of knowledge, skill and attitude to perform effectively. Apart from experiential learning, summer internships prepare students with core knowledge and enable them to be better prepared for the specialized electives in second year.

Students are rigorously imparted training in workshops prior to their Summer Internship programme to ensure that they understand the importance of the real world learning process. Our curriculum mandates a minimum of 2-3 months / (8 to 12 weeks) long internship to gain first-hand experience of the business world.

Internship projects are evaluated by faculty mentors and IILM Career Development Center (CDC) before they are allocated to the students. The faculty mentors also visit companies and interact with students' industry mentors to track progress of the students. As a part of summer internship evaluation, students submit fortnightly progress reports to their mentors and CDC. Guidance on final report preparation is provided by faculty mentors.

The final assessment comprises of summer internship progress reports, executive summary, company details, and learning followed by an interaction with company representatives, industry mentor, alumni and faculty.

Student can also give presentation of the summer Internship project before the industry mentor and team member of IILM Career Development Center at the company premises.

Overall, summer internship provides an insight into the real world of their chosen careers and is imperative for students' overall development to become an effective manager.

2.

Global Study & International Trek

Current business environment makes it vital for businesses to tap into global markets to ensure the viability of a venture. Creating and maintaining international relationships and networks is a key skill for all managers and matching global norms is imperative for success.

Keeping pace with the globalizing environment, IILM offers an optional three-week Global Study in Germany, Canada, Finland, France or Spain. The purpose of Global Study is to give students global exposure of teaching pedagogy, industry, and diverse cultures enabling them to expand their horizons and develop an international perspective.

During the three week period, students complete course modules (counted as elective credits), develop skills for working in diverse teams, and understand and accept cultural diversity, the exposure standing them in good stead in their progress towards professional goals.

International Trek

International Treks give MBA students an opportunity to explore the economic, political, and cultural contexts of business in different regions of the world. Students partner with Faculty and Staff Mentors to plan the tour content and logistics who provide them with support and guidance.

A 7 day International Trek where students travel to a different country to visit industries and meet key functional people to understand the requirement and the skills required to work in various functional areas. Each student visits one country (Israel, Estonia, and Shenzhen) during their MBA program.

The organizing team identifies the theme that interests the students and designs a series of treks to locations like Dubai (experience doing business in Middle East), Israel (experience the Silicon Valley of East), Singapore (learn logistics and supply chain Management), Finland (Learn how to drive Innovation) & Indonesia / China (to learn about the manufacturing industry). Usually a one-week-trip with students who are interested in educational entrepreneurship and innovation. Students get an opportunity to gain knowledge and first-hand experience challenges associated with areas of their interest. They also meet professionals from other countries, learn from them, as well as exchange ideas with business and government leaders from other parts of the world. Planning treks give students an opportunity to test their leadership skills, get an in-depth look at an industry or geography, and build contacts for future success.

These treks are organized throughout the year at times when they do not conflict with curriculum classes.

Semester Abroad Study Program

As a college student ready to take on the world, there are many great opportunities and experiences awaiting when you choose to study abroad. Studying abroad may be one of the most beneficial experiences for a college student. By studying abroad, students can have the opportunity to study in a foreign nation and take in the allure and culture of a new land.

Choosing to study abroad for a semester allows student to see the world beyond their own city and country. It offers the opportunity to learn about a new culture and, if you do not speak the language of the country, then it's a great way to improve language skills. There is an opportunity create friends, experiences, and memories that stay with you for your entire life. Study abroad programs also look great on resumes, which is an easy way to enhance job opportunities down the road. Essentially, choosing to study abroad provides opportunities and benefits that are simply not available when sitting at a desk in an academic classroom. It is immersive, hands-on learning that a student would treasure.

IILM partners with the overseas Universities to give a rich experiential blend of culture, academia and business management environment for the student to groom himself/herself in the echelons of the dynamic business world. You'll find that completely immersing yourself in the education system of your host country is a great way to really experience and understand the people, its traditions, and its culture. Education is the centrepiece of any study abroad trip. When you study abroad you will find incredible new foods, customs, traditions, and social atmospheres. You will find that you have a better understanding and appreciation for the nation's people and history. You will have the opportunity to witness a completely new way of life.

Once you have been accepted into a program, you can start researching the country including the language and any cultural norms that might be different from your home country. It is also a good idea to start looking into what items you should pack, locating sturdy luggage to take with you, and acquiring a valid passport. Though, not every study abroad program requires students to learn a foreign language. It is a good idea to understand what language skills are required of you before applying. Some programs might provide language courses while you are abroad. If not, you might consider taking a language class or investing in language learning software to give you a leg up while traveling.

3.

Career Centre

The IILM Career Centre helps students to get out of their comfort zones and explore their potential. Launching successful careers through a combination of academic courses and practical guidance, IILM Career Centre aims at steering the students in the right direction for a successful and fulfilling professional life through a variety of endeavours.

IILM Career Centre offers support and guidance through Alumni Connect where students get an opportunity to meet, interact and learn from Alumni as well as explore possibilities of working with them. Those students who are unclear about their choices can turn to Career Advisory to point them in the right direction through a series of advisory and Counselling on professional as well as personal fronts. Through Industry Interactions with different industries, Career Centre hopes to expose students to wider career choices and explore new horizons to careers and innovation.

Students, who aspire towards International Education, can seek guidance on courses and universities abroad and how they can apply and get admission in a course and university of their choice. The Career Centre hopes to nudge the students towards world renowned academic institutes pushing them to realize their full potential.

Career Centre believes that the world is an oyster and students can achieve anything they wish in life or go anywhere they want because they can create the opportunity and develop the ability to do so. Career Centre takes the students to the next level by organizing counselling workshops on mindfulness and purposeful living and offers several courses that help students fit in seamlessly into the professional world.

4. Start-ups & Live Projects

Creating an entrepreneurial environment IILM prepares and motivates budding and future entrepreneurs to take their entrepreneurial journey forward and realize their dreams. IILM creates future 'Game Changers' by fostering the entrepreneurs with 3 Cs - Content, Context, and Contacts - that enable them to design and launch successful starts budding and future entrepreneurs to take their entrepreneurial journey forward and realize their dreams.

IILM commitment to engrave leadership and management skills in their students is not restricted to classroom sessions, but is achieved through a host of initiatives including personalized mentoring,

interaction with domain experts, live company projects, workshops, events and conferences, thought evoking activities/games, networking, sessions with start-up founders, and simulations to initiate and develop the entrepreneurial spirit among students.

Students visit companies, receive coaching, develop business plans, and network with a cohort of peers from around the globe. IILM regularly organizes conferences and events wherein they invite top entrepreneurs, venture capitalists and successful alumni from the industry, so as to facilitate their students to interact, discuss and learn from them. The major focus is on development of entrepreneurial spirit among the students. Not only does IILM train future entrepreneurs but also encourage and support students with great visions and business ideas in the Incubation Centre at Gurugram.

At IILM, students are given an opportunity to do live projects. These are real-time projects with pre-defined deadlines. They give students a hands-on experience to gain real work expertise. IILM students have received several live project opportunities in the areas of Business Development, Marketing Research, E-commerce, HR and Marketing from organizations including Percept, Bajaj Finserv, Britannia, Patanjali, Marks & Spencers, Marico, ITC, AutoExpo, RJ Corp, IMRB, SMC, Colgate and Nielsen in the last two years.

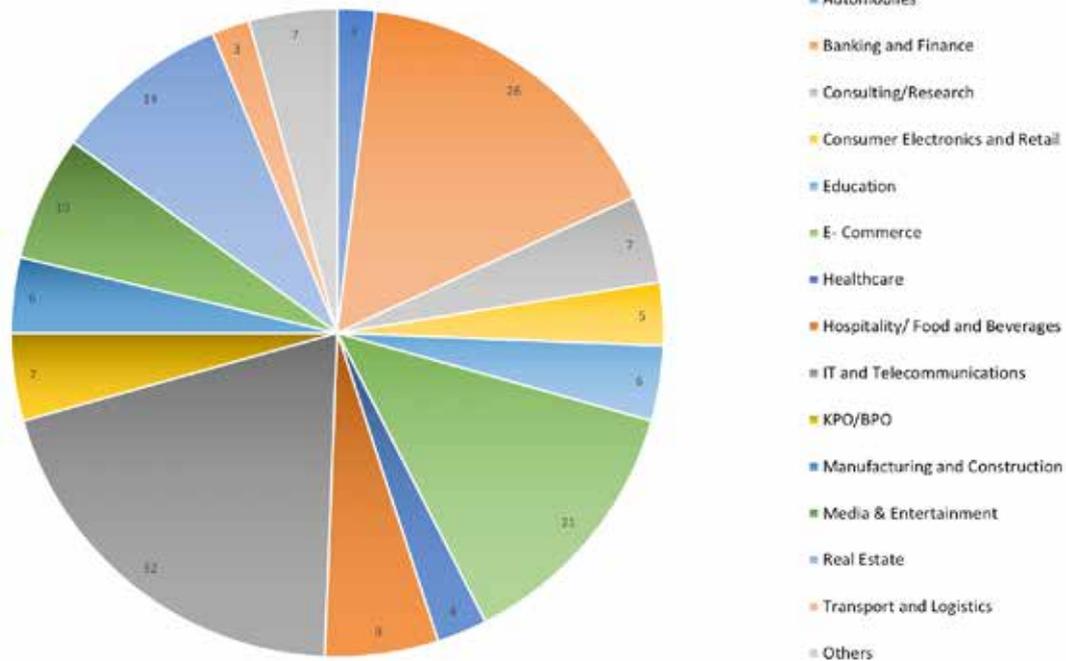

5. Placements (300+ Companies)

IILM has a robust Placement Cell - Career Development Center (CDC) which is well connected with different Industry sectors. The principal focus of the Career Development Center (CDC) is to foster Corporate Connect by facilitating industry engagement. The CDC frequently networks with the best companies in FMCG, Banking, Automotive, Research, IT, Telecommunications, Manufacturing and many more.

IILM has all the required facilities for conducting recruitment processes for company presentations, group discussion rooms and conferencing facilities etc. CDC renders outstanding placement support to students by using well planned roadmap to review career options, resume and LinkedIn profile preparation, honing group discussion skills, interview skills, placement related workshops, providing good opportunities for summer internships, live projects, mentoring by IILM alumni , empower students with life-long career decision-making skills, prepares students on acquiring and demonstrating the right personality traits and assist the students for placement in reputed companies through in-campus and joint campus placement programs. Placement Workshops ensure continuous uninterrupted skilling of students to gear up for the Companies in place. Placement Committee, a student driven Team is all energized to network, act and execute. Ideal placement opportunities are sought for students based on their aptitude and interest. Students joining IILM are predominantly focused on getting good internship followed by placements that hold the promise of a fruitful career. The Career Development Center (CDC) and faculty ensure that students must get an exceptional co-curricular opportunity including industrial experience during the MBA program

Placement weeks are an endeavor to strengthen industry academia interface. To achieve this objective CDC seriously works to enhance Industry-Institute interaction through various industrial visits and also invites recruiters to visit campus to interact with students . Recruiters brief students about the job skills required for their industry and clarify doubts regarding the same. Students get an idea of the various industries available to them and can make decisions on what they are best suited for. Our recruiters comprise over 300 companies across the country spanning diverse industry sectors.

7. 12000+ Well Placed Alumni

Alumni are an important resource of any university and IILM Fraternity is proud to have a huge network of over 12000 Alumni who are professionally well-placed in various capacities across industries both in India and abroad. They have risen to high ranks and hold excellent positions in reputed companies.

IILM strives to engage with the Alumni in various ways. They are invited to interact with students to guide and motivate them about careers or to deliver guest lectures on topics of their expertise. They are consulted on industry specific workshops being organized to hone the students' skills. They also become Alumni Mentors for students, thus providing them with first-hand knowledge and experienced advice along with a platform for networking. They are invited to sit on panels to conduct SIP viva and/or judge SIP report and become a part of our Board of Governors. IILM also organizes Annual Alumni Meet on campus.

8.

Residences at IILM

The Gurugram campus is located on Golf Course Road, in the heart of the industrial hub of Gurugram which an epicentre of industry is as well as start-ups. The students have the advantage of gaining the knowledge of business and entrepreneurship from their surroundings as well as the in-house Incubation Centre.

Our Gurugram campus provide safe and secure residences for students and faculty. Constant monitoring by security guards and cameras, comfortably furnished apartments, delicious and wholesome food, and a friendly environment ensure that students can live in a safe and comfortable haven – a home away from home.

IILM residences allow students to focus on personal, academic and professional development during their study. Here, students stay busy with evening programs and networking dinners apart from cultural excursions. Each hostel has spacious and well-furnished rooms offering a plush modern lifestyle. The hostels are well equipped with air-conditioning, Wi-Fi facility, RO water purifier, water cooler and provision for indoor and outdoor games.

IILM girls hostel situated is our on campus residence surrounded with greenery, having a comfortable and homelike environment. The modern amenities like air conditioning, microwave, washing machines, etc. have made our life easier at the hostel. Our parents and us are absolutely tension free because of the 24 hours security. Here, we feel secure, we feel at home.

Akshita Madaan
Batch 2019-2021

IILM boys hostel is a very lively place to live. Many equipments are available to play with, like TT table, football, carrom, X box, TV etc. The air-conditioned rooms are ideal for living and everything is provided from beds to study tables. Apart from this, there is high level of hygiene and cleanliness here. There is 24 hours fast internet connectivity.

Aakrit Arora
Batch 2019-21

9.

Merit and Means Scholarships and Loans

It is IILM's endeavour to make education more affordable for students from all walks of life and ensure that every deserving student gets an opportunity for quality education. This is made possible by our merit and means based scholarship policy. IILM has also partnered with banks to make the procedure for application of education loans easier for students with the aim of helping students bridge the gap between the cost of the programme and student's ability to pay.

Various categories of scholarships are available designed to cater to different students - academic, sports and extracurricular excellence, etc. Please ask Admissions Counsellor for details and criteria for all categories.

The decision of the Scholarship Award Committee on the eligibility and grant of the scholarship to a student will be final. No two/ more categories of scholarships can be combined
